NAGASANKAR

2nd-Year B.Tech AI & ML Student | Chalapathi Institute of Technology (CIT)

Email: vankamallanagasankar33@gmail.com | GitHub: github.com/Nagasankar77 | Mothadaka, Guntur, AP - 522016

EDUCATION

Chalapathi Institute of Technology (CIT) [College Code: CITY] **Expected: 2027**

B.Tech - Artificial Intelligence & Machine Learning (Currently 2nd Year) Mothadaka, Guntur, AP - 522016

Coursework: Python, Data Structures & Algorithms, DBMS, SQL, Artificial Intelligence, Machine Learning

TECHNICAL SKILLS

Programming Languages: Python, C, Java

Core CS & Databases: Data Structures & Algorithms (DSA), DBMS, SQL

AI & Machine Learning: Artificial Intelligence, Machine Learning, Generative AI, LLMs, Prompt Engineering

Development & Tools: HTML, CSS, JavaScript, React, Git, GitHub, REST APIs

FEATURED PROJECTS

1. PROXIMUS - AI-Powered Learning & Exam Preparation Platform Python, GenAI, React, PDF Parsing

- AI-powered learning platform helping students prepare for exams using lecture notes and PDFs.
- Extracts topics and creates structured study blueprints and revision checklists. GitHub: github.com/Nagasankar77/proximus-

2. CareerPath AI - AI Career Guidance Platform Python, Machine Learning, React

- Analyzes a student's resume and target career to identify concrete prerequisite skill gaps.
- Generates personalized milestone learning roadmaps. GitHub: github.com/Nagasankar77/Career-path-

3. JANBHASHA AI - Regional Language Learning Platform AI, NLP, Multilingual, Education

- Educational project making technical learning accessible through regional and mother-tongue explanations.
- Bridges STEM language barriers for regional medium students. GitHub: github.com/Nagasankar77

4. THE HOUSE OF DEVIL - Interactive Psychological Horror Web Game JavaScript, React, Game Logic

- Interactive first-person psychological horror web game with exploration and atmospheric gameplay.
- Storyline-driven clue investigation and browser state handling. GitHub: github.com/Nagasankar77/The-House-OF-Devil-

LEARNING ROADMAP

2026 Foundation: Python, C, DSA, DBMS, Web fundamentals

2027 AI/ML Foundation: Machine Learning, Statistics, Data Processing, Deep Learning

2028 Advanced AI: Generative AI, LLMs, RAG, AI Agents

2029 Career: Internships, Advanced Projects, AI Engineering, Job Preparation

CURRENT ACADEMIC STATUS

Currently building my skills through academic learning, practical projects and continuous development.
Specializing in Artificial Intelligence & Machine Learning at Chalapathi Institute of Technology (CIT), CITY.
